Hi John,

In a meeting now but will give you a call shortly. I don't see any reported outages for web or mobile though.

I see that you just added some funds via instant ACH. Please note you will NOT be able to use these funds to post additional collateral as ACH transfers require a 5-day hold period. You will need to deposit crypto or trade Link in order to be able to immediately use those funds.

Hi [REDACTED]
Your site is down again.
I can't post collateral. Please call me asap. I tried [REDACTED] as well.

Subject: Re: BlockFi Loan Status ---Margin Call

Hi John,

Happy to help if need any assistance with Loan ID 250568f4 and Loan ID 176fcbc3.

Both loans are currently at 77% LTV with liquidation price points of \$30,578.20 and \$30,500.96.

The only way to immediately cure margin is to post more BTC to these loans.

Alternatively, we can process a stablecoin payment but these are processed manually on our end and so can't guarantee the loan will not be liquidated if price drops and our team has not yet processed the request.

Let me know if you require any assistance.

Best,
[REDACTED]

Morning John,

As we continue to experience volatility, I have cc'd my colleague, [REDACTED], [REDACTED] and his team will be your contact going forward should any questions arise and you need guidance on the two loans that are in Margin Call.

Thank you,

[REDACTED]

John,

I'm reaching out to let you know that two of your loans (176fc3c3 and 250568f4) are in margin call and your action is required.

Please do note that if prices continue to drop and your LTV reaches 80%, your loan will be in Default and may be subject to liquidation. If this happens, collateral liquidations cannot be reversed and transaction details will be provided to you.

The fastest and recommended way to cure your margin is to send additional crypto to your Loan, as the system will pick that up immediately. If you have crypto in your Interest Account, you can transfer it directly to your Loan through your Dashboard (steps below).

Navigate to the specific Loan:
Click Deposit Collateral
Select Interest Account
Enter the amount and submit

You may also send stablecoin to your Interest Account wallet, and we can transfer the funds internally to apply to your loan, however that requires a level of manual work that may cause slight delay, so we cannot guarantee this will be processed in time. Lastly, you could also wire us directly, or make a payment via Scratch, although Scratch ACH will definitely be the longest to process and is not recommended. Cash moves much slower than crypto and cash payments are processed on a best effort basis, so we recommend posting collateral as the best option.

Please let me know if you have any questions or concerns.

Best,
